We delivered excellent new bookings of \$9.4 billion, demonstrating that our services continue to be highly relevant to our clients. Based on our continued momentum and very strong performance in the first half, we are raising our business outlook for revenues for the full fiscal year.

"Our growth strategy and the focused investments we have made across our business are clearly differentiating Accenture in the marketplace—particularly in digital, where we delivered revenue growth of more than 20 percent in local currency in the first half of the fiscal year. Business Outlook

Third Quarter Fiscal 2015

Accenture expects net revenues for the third quarter of fiscal 2015 to be in the range of \$7.35 billion to \$7.60 billion. This range assumes a foreign-exchange impact of negative 11 percent compared with the third quarter of fiscal 2014.

Full Fiscal Year 2015

Accenture's business outlook for the full 2015 fiscal year now assumes a foreign-exchange impact of negative 8 percent compared with fiscal 2014; the previous foreign-exchange assumption was negative 5 percent.

For fiscal 2015, the company has raised its outlook for net revenue growth in local currency to be in the range of 8 percent to 10 percent, compared with 5 percent to 8 percent previously.

In May 2015, the company will record a non-cash settlement charge of approximately \$60 million, pre-tax, as a result of a current offer to former employees to receive a voluntary one-time, lump-sum cash payment from the company's U.S. pension plan. The payment will settle the company's pension obligations to those former employees who participate. This settlement charge will reduce the company's fiscal 2015 GAAP EPS by approximately \$0.05 and its full-year GAAP operating margin by approximately 20 basis points.

Accenture now expects diluted GAAP EPS to be in the range of \$4.61 to \$4.71, including the positive impact of its increased revenue outlook, which is offset by the negative impact of its revised foreign-exchange assumption, as well as the negative impact of the settlement charge. Excluding the settlement charge, adjusted EPS is expected to be in the range of \$4.66 to \$4.76. The company's previously guided range for EPS was \$4.66 to \$4.80.

Accenture now expects GAAP operating margin for the full fiscal year to be in the range of 14.2 percent to 14.4 percent, compared with its previously guided range of 14.4 percent to 14.6 percent. Excluding the settlement charge, operating margin for the full fiscal year is expected to be in the range of 14.4 percent to 14.6 percent, an expansion of 10 to 30 basis points from fiscal 2014—consistent with the company's previous expectation.

Reflecting its revised foreign-exchange assumption, the company now expects operating cash flow for fiscal 2015 to be in the range of \$3.85 billion to \$4.15 billion, compared with \$3.95 billion to \$4.25 billion previously; continues to expect property and equipment additions to be \$450 million; and now expects free cash flow to be in the range of \$3.4 billion to \$3.7 billion, compared with \$3.5 billion to \$3.8 billion previously.

The company continues to expect to return at least \$3.8 billion to its shareholders in fiscal 2015 through dividends and share repurchases.

The company continues to expect its annual effective tax rate to be in the range of 26.0 percent to 27.0 percent.

Accenture is now targeting new bookings for fiscal 2015 in the range of \$33 billion to \$35 billion, compared with \$34 billion to \$36 billion previously, reflecting its revised foreign-exchange assumption.
